

Instructions:

The call for application for the Master in Design of Steel Structures will appear on both www.unina.it and www.designofsteel.com web sites.

The most important dates:

September 20th: deadline for submit the application. The candidates must submit the following documentation:

A) **Application form**, filled in and signed by the candidate in three copies (one copy will be returned to the candidate with confirmation of reception) using the form available on sites www.unina.it and www.designofsteel.com. In the application form, the candidate's complete details, including his/her address, the degree held with its attainment date, final score, and name of the university where it was obtained, must be provided.

B) **Transcript of records or autocertification** relative to the degree held, indicating the final score and the exams passed with their score.

C) **Transcript of records or autocertification (if available)** relative to other Master's degrees, Ph.D. degrees, post lauream certificates, in the topics related to the Master; publications, job and/or research experiences in the sector of steel constructions.

A copy of the degree's thesis and of the publications must be enclosed to the application forms.

September 30th: the Selection Committee will formulate a list of candidates that have admitted to the Master Course. The list of the candidates with their score will be published on www.unina.it and www.designofsteel.com web sites. The admission to the Master and the student score in the admission list will be designed only on the basis of candidates' study qualifications (there won't be an oral examination, therefore the candidates must not come in Italy before the beginning of the Master Course). Based on this score, the first 20 candidates will be admitted to the Master course. To each of the first 5 candidates, scholarships of 5.000,00 € for tuition will be assigned. During the Master Course, some funds for additional scholarships may be available, and the assignment of scholarships to the Master students will proceed on the basis of scores reported in the list.

October 6th: The selected candidates must submit to the Office of Admissions and Records of the School of Engineering in Naples the following documentation necessary for enrollment:

1. enrollment application on stamped paper of € 14,62;
2. two equal photos and one two-sided photocopy of a valid identity document (ID) (together with the original to be shown);
3. receipt of payment of the first instalments of the tuition fees and the regional tax.

All forms will be available at the Office of Admissions and Records.

October 13th: Start of the Master Course. If you have any problem to come in Italy within this date we will try to meet your needs.
